Subject: Early Release

TWIMC:

Please make a smart decision re the bill to change early release of those imprisoned. If they commit the crime, they should do the time, unless and until the law is changed that got them there in the first place. Try to change the law, if you want, but unless and until you can, please don't encourage the release of those who have been convicted of breaking existing law and who may get out and do worse, as has happened too often.

Sincerely,
Rod Jaros
Danbury
